

Student Resource Scheme 2024

Non-Participation Activities

Unpaid SRS fees impact heavily on the school. Therefore in 2024, **students who choose not to participate or have outstanding SRS fees may be denied** the opportunity to participate in non-compulsory school activities, activities subsidised by the SRS or access resources as listed below:

It is not the aim of the school to disadvantage students in any way. However, full financial support by parents/guardians is crucial to the school's budget. If you find that your fee payments are falling behind because of financial hardship, please contact the Principal to renegotiate the terms of payment. Good communication helps the school to help your student. **Success. Together.**

Activities

- Alternative Programs
- Artist Workshops
